INTRODUCTION

All previous outbreaks, epidemics and pandemics end when Community Immunity, *NOT* the discredited “Herd Immunity”, renders the majority of us immunologically able to handle contact with the pathogen instead of succumbing to it.

The destructive and illogical measures brought in to support the Declared Pandemic, now into the second year, the counterproductive masking, social distancing and lockdowns, have inhibited and actually prevented the development of Community Immunity, leaving the general population *MORE* vulnerable to pathogens, not less.

Shutting away healthy people until they can be intentionally exposed to an enhanced version of the pathogen (the “vaccine”) is not only bad public health, it is a way to insure maximal harm from that enhanced pathogen. The enhanced pathogen is endlessly replicated Spike Protein that the bodies of the “vaccinated” have been programmed to produce – for the rest of their lives.

The injection of the novel gene-altering “vaccines” (hereinafter, The Jab) itself causes massive biological harm and wide-spread death according to both EU Yellow Card and US VAERS death reports.¹ In fact, even official sources are now forced to admit that, since the introduction of the Emergency Use Authorization (EUA) Jabs more people have died from injection from a COVID-19 jab than from the disease itself.²

Far worse, however, is the continuing, permanent harm done to the jabbed individual and the endless, life-long manufacture of the Spike Protein which has been identified as the cause of the widely varied symptoms associated with the presence of the Spike Protein.

And worse still is the fact that the endless replication of the Spike Protein causes the jabbed person to not only damage him or her self through immune distortion and potentially cataclysmic inflammatory damage to every tissue, but each jabbed person literally is transformed into a weaponized walking, talking, breathing factory of the Spike Protein, transmitting-shedding-spreading it -- and potentially other as yet unknown substances -- through his/her breath, skin, urine, feces, semen, menstrual fluid and saliva.

The totality of what, precisely, is being transmitted/shed/spread is unclear. Precise scientific determination of the material(s) being produced and communicated through contact is urgently required.

Is the jabbed person now a recipient for instructions to make other proteins besides the dangerous Spike Protein through the much discussed, but little studied (at least independently)

¹ At the time of writing this report there have been about 6,000 deaths reported to VAERS – the Vaccination Adverse Events Reporting System – out of approximately 200 million jabs delivered (1 in 33,000). By comparison, when just about 50 people died after receiving the 2009 Swine Flu vaccines, out of 45 million doses, that vaccine was taken off the market (1 in 900,000) – the COVID jabs are over twenty-five times more dangerous. <https://www.opensourcetruth.com/vaers-nearly-6000-dead/>

nano technology widely rumored to be part of the various jabs? Is either a jabbed person or a person contaminated by contact with a jabbed person now subject to electronic instructions to alter immune or other functions, manufacture materials harmful to self or other or involuntarily connected to a new internet of things where the “things” are human beings and their brains and bodies?

These once-wild-sounding ideas are feasible and well within the range of current, indeed, past technologies. They have been glowingly, and fearfully, discussed by scientists, social engineers, depopulationists and others in open contexts for years. What has been said in the back rooms of policy makers and technocrats remains unclear.

What is clear is that these are real possibilities and must be clearly examined and understood if we are to halt them either before they are deployed against us or end their use if they have already been deployed.

Is the Spike Protein the only pathogen being transmitted/she/spread by the jabbed? Are bits of mRNA also transmitted as a “contagious vaccine”, as studied and created by DARPA?^{3, 4}

Rather, the most serious threat from the failure of the Public Health Authorities to effectively deal with the Wuhan Virus outbreak is the threat that the “vaccinated” (hereinafter, The Jabbed) pose to the vaccine-free (hereinafter, The Unjabbed).

This eBook is a work-in-progress as we learn more about the Jab and about the best strategies to respond to “whatever” is being aimed at us through the Jab and from the Jabbed.

This eBook is a digest of important information on the Jabs and the Spike Proteins compiled by Rima Laibow, MD, and Ralph Fucetola, JD, from reports posted at www.OpenSourceTruth.com and its Telegram channel, <https://t.me/opensourcetruth>.

The eBook, while far from complete, since our knowledge of the Spike Protein is, likewise, far from complete, aims to bring attention and enlightenment on both the nature of the threat and potential responses to it.

The first response – which must be the response of the Public Health Authorities if they were motivated by adherence to the universal right of Informed Consent and to the fundamental principle of “Do No Harm.” -- would be to *suspend* the Emergency Use Authorization (EUA) for the COVID jabs and prevent further harm. They need to heed the plea of the Frontline Doctors in their pending lawsuit against the EUA.⁵

Tragically, at this point, there is no known way to reverse the harm done to the vaccinated

and, perhaps, to their contacts. The WHO, CDC, FDA and other national and international agencies are not, however, considering this necessary step although the number of deaths and miscarriages since the start of 2021 far exceeds the totals previously reported on USA VAERS system (and similar systems in other countries) over the preceding decades.

Make no mistake: the jabs are killing and maiming young and old, the well and the ill. A bare minimum of 6,000 people have died in the US reportedly from receiving the jab according to VAERS, the Vaccine Adverse Event Reporting System. VAERS is known to capture between 1 and 10% of all vaccine-related adverse events.⁶ So using the most generous mathematics, the number of US jab-dead is over 60,000.

And [not] counting, at least not if you are among those heavily invested in having the vaccination program go forward: CDC, FDA, Big Pharma, the Great Reset crowd, Bill Gates, and the rest of the depopulationists.

For comparison, in the First Swine Flu Debacle in 1976 was halted when three (3) people died. The New York Times announced on the front page on October 13 that year “Swine Flu Program is Halted in 9 States as 3 Die After Shots.

The difference? Perhaps disease prevention, however misguided, was the object back in 1976 while something different, something that entails massive numbers of deaths, might be the object now.

Consider that the gene therapy devices misidentified as “vaccines” have a powerful effect on pregnancies: they terminate them.

The jabs have never been tested for safety or efficacy in pregnant women. Indeed, women of child-bearing age who were pregnant were excluded from the brief and exceptionally loosely designed clinical trials for these devices. These same women were advised not to become pregnant for some months after receiving the shot because the impact on the fetus, and on reproductive health in general, was totally unknown in humans,

Nonetheless, in an ecstasy of ill-informed and reckless decision-making, WHO/CDC/NHS and other public health bodies around the world have seen fit to declare the jabs safe for pregnant women with absolutely no data on which to base their baseless enthusiasm.

The results, tragically, increase the number of dead-by-jab astronomically. In 82%, 104 out of 127 women jabbed in the first 20 weeks of their pregnancies, their babies died and were lost through spontaneous abortions.⁷

We do not know how many babies have been lost this way. They were murdered by the agencies charged with our health and now overseeing our demise.

It is noteworthy that the cited paper makes every statistical slight-of-hand attempt to hide these data, normalizing the impact on pregnant woman by including third trimester babies with those lost in first and second trimesters. Such chicanery is, in the opinion of the authors of this eBook, clear evidence of intentional misdeeds and misinformation.

And since the consequences are so astonishingly dire, the chicanery involved is not, we believe, just the usual malfeasance involved in developing injections that lower immune function and cause disease and premature death in increased numbers.

These agencies know this, must have known it, and yet continue to shill for the jabs, slaughtering babies as they go, along with a great many other people.

These are equal opportunity depopulationists, it would seem.

⁷ [Preliminary Findings of mRNA Covid-19 Vaccine Safety in Pregnant Persons - PubMed \(nih.gov\)](#)

The magnitude of this is so unimaginably large that it is, at least for us, impossible to conclude anything but that the misinformation and failure to meet the duty to warn requirements they have are part of an intentional agreement across national boundaries, to push the kill shots.

Harsh characterization? Tell that to a mother who just lost her previously healthy fetus because she followed the corrupt guidelines of health experts who condemned her baby to death. Did they also condemn her to barrenness? Given that the spike protein contains regions that closely resemble parts of the uterus, inviting auto immune attack on the uterus, the answer may very well be “yes”.

There are, after all, many ways to kill someone: you can do it by killing the individual at some point in his or her life cycle after birth, you can kill them *in utero*, or you can prevent a population from ever being able to reproduce so that all of their progeny and descendants are never born.

All three are in play with these genetically engineered jabs.

The group *American’s Frontline Doctors* have sued the Government, demanding suspension of the EUA approvals.⁸ Here is a bit of what they are saying to the Court:

The Vaccines are unapproved, inadequately tested, experimental and dangerous biological agents that have the potential to cause substantially greater harm than the SARS-CoV-2 virus and the COVID-19 disease itself. According to data extracted from the Defendants’ Vaccine Adverse Events Reporting System (“VAERS”), 99% of all deaths attributed to vaccines in the first quarter of 2021 are attributed to the COVID-19 Vaccines, and only 1% are attributed to all other vaccines. The number of vaccine deaths reported in the same period constitutes a 12,000% to 25,000% increase in vaccine deaths, year-on-year. The Vaccines appear to be linked to a range of profoundly serious medical complications, among them myocarditis, miscarriage, irregular vaginal bleeding, clotting disorders, strokes, vascular damage and autoimmune disease. Meanwhile, Pfizer, Moderna and Janssen enjoy statutorily conferred immunity from liability for any harm caused by their experimental products.

THE RISKS OF THE JAB

In addition to the already discussed dangers of these jabs, and perhaps just when you thought it could not get any worse, it gets a lot worse.

It appears certain now that the jabbed contaminate the unjabbed with their own spike protein (and what else?) made in their brand-new spike protein factories: the cells of their bodies. Forever.

The internet is rife with commentary on this phenomenon and what can be done about it. All of that commentary is speculative with the exception of a very few studies which have looked directly at the invasion potential of Spike Protein and shown that in one case, a water extract of

⁸ <https://www.opensourcetruth.com/frontline-doctors-sue-fauci/>

dandelion roots and leaves reduced attachment and penetration by the spike protein in normal cells in the lab.⁹

Jabbed people are not harming only themselves (like those who have chosen to be vaccinated ‘against’ diseases using conventional, non-gene-altering vaccines).

In addition to contamination with microorganisms, apparently including toxoplasmosis, and highly toxic graphene oxide, contained in masks, nasal swabs and vials of the COVID-19 gene-altering jabs, it appears that the bodies of those who receive the EUA jabs will now manufacture and forever shed Spike Protein (the “crowns” of the Coronavirus) which is the part of the virus that attaches to living cells, causing disease symptoms in them and in those they infect with these protein parts. The shed protein, it appears, can cause “second hand adverse reactions.”

This fulfills the requirement for a contagious vaccine, sought and developed by DARPA and totally eliminating the legally guaranteed Right of Informed Consent.

Thus, the jabbed are a significant danger to themselves and to others. Since there is no “off switch” to the manufacture of the spike protein, it is logical to conclude that they remain a danger to themselves and others permanently.

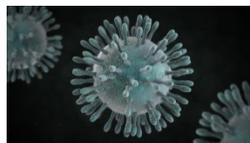

Obviously, research on just what the jabbed produce, how and how much of that do they shed, what and how is the shed material transmitted - and what are the dangers of that transmission = is urgently needed.

The likelihood that any of the government agencies which so strongly support using these dangerous jabs on larger and larger segments of society will carry out that research is nonexistent.

Big Pharma, seeking to re-jab everyone on the planet with “boosters” is clearly not going to release the results of such research if they do carry it out (which seems to me utterly unlikely).

The only way such research will be carried out is as privately initiated research. Natural Solutions Foundation is prepared to do that work on behalf of all of us in order to determine what the successful countermeasures to this disaster are. Financial resources are required to carry out this research.

Anyone motivated to make this possible is urged to contact Rima E. Laibow, MD, at Dr.Rima@NaturalSolutionsFoundation.com to arrange this vital information gathering.

Jim Stone, Freelance Journalist

PRECURSOR: Just so people know right off the bat what this is about, the MRNA corona vaccines don't fight coronavirus, they instead command your body to start producing the prion that causes mad cow disease.

I spent a while pondering the new revelations about the corona vax and figured out a key item that cinches the topic

First of all, for those who did not see it, over Easter weekend Alex [Jones] did an emergency broadcast about the corona vax being specifically formulated to cause your body to produce the prion that causes mad cow disease. If you scroll down a little bit, it is there and it is all documented. Here is the revelation I finally had -

The ONLY reason why the Corona vax is an MRNA vax (*and the first one to boot*) that programs your body rather than triggers an immune response - the ONLY reason for this is because if they injected the prions, they probably could not put enough of them in a reasonable shot to do the trick, and because a conventional vax cannot be made to force your body to start producing it's destruction. A conventional shot can be very destructive, but to make it bad enough it would have to be too devastating too often early on. ***They wanted a shot that would cause delayed devastation and death*** and there was no way to formulate a conventional vaccine to do that without killing too many people up front...”

Reporter Stone is not the only observer who has raised dire warnings regarding the Spike Protein involved in the EUA jabs. Leading physicians have also raised the hue and cry. Dr. Sherri Tenpenny recently explained her position on the jab:

“She talks about instances of hyper-immune response in test animals during previous attempts at coronavirus vaccines, like SARS and MERS, which has been a persistent problem.

All seems well for a while, until the animals are exposed to the wild mutated virus. To her, it's clear that the same will happen with humans.

Dr. Tenpenny and other scientists predict that millions may die from the vaccine, but it will be blamed on a new strain of COVID – to make an argument for even MORE deadly vaccines.

‘We’re at a critical juncture in time for all of humanity on a lot of different levels. And we are past the time of hand-holding, pussy-footing around, being careful to not offend anybody and being so gentle with the snowflakes – we just can’t do it anymore...

‘We’ve been doing these vaccinations in America for a month. And in 30 days, we have over 40,000 adverse events reported to the Vaccine Adverse Event database... we have over 3,100 cases of anaphylactic shock, we have over 5,000 neurological reactions, which

can range from headaches, to numbness and parasthesias, to headaches, to dizziness to vertigo, to feeling like you can't feel your hands and your feet – in 30 days!
'And it's been estimated that less than 10% of adverse reactions that occur are reported to VAERS...'”¹⁰

Concerns over the risks posed by the novel “vaccine” jab were echoed by a leading virologist.

May 19, 2021 ([LifeSiteNews](http://LifeSiteNews.com)) – French virologist and Nobel Prize winner Luc Montagnier called mass vaccination against the coronavirus during the pandemic “unthinkable” and a historical blunder that is “creating the variants” and leading to deaths from the disease.

“It's an enormous mistake, isn't it? A scientific error as well as a medical error. It is an unacceptable mistake,” Montagnier said in an interview translated and published by the [RAIR Foundation USA](http://RAIRFoundationUSA.com) yesterday. “The history books will show that, because it is the vaccination that is creating the variants.”

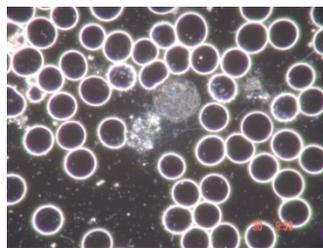

Many epidemiologists know it and are “silent” about the problem known as “antibody-dependent enhancement,” Montagnier said.

“It is the antibodies produced by the virus that enable an infection to become stronger,” he said in an interview with Pierre Barnérias of Hold-Up Media earlier this month.¹¹

REPORT: PRIONS

mRNA vaccines may cause your body to churn out PRIONS that “eat your brain” like Mad Cow Disease

The spike protein outer shell of the coronavirus contains “prion-like regions” that give the virus very high adhesion to ACE2 receptors in the human body. This has been documented by a study entitled, “SARS-CoV-2 Prion-Like Domains in Spike Proteins Enable Higher Affinity to ACE2,” published by the Human Microbiology Institute:

¹⁰ <https://forbiddenknowledgetv.net/dr-sherri-tenpenny-explains-how-the-depopulation-covid-vaccines-will-start-working-in-3-6-months/>

¹¹ <https://www.lifesitenews.com/news/nobel-prize-winner-mass-covid-vaccination-an-unacceptable-mistake-that-is-creating-the-variants>

The presence and unique distribution of prion-like domains in the SARS-CoV-2 receptor-binding domains of the spike protein is particularly interesting, since although the SARS-CoV-2 and SARS-CoV S proteins share the same host cell receptor, angiotensin-converting enzyme 2 (ACE2), SARS-CoV-2 demonstrates a 10- to 20-fold higher affinity for ACE2

The mRNA vaccine works by hijacking your body's cells and causing them to churn out proteins modeled after the spike proteins in the SARS-cov-2 coronavirus. Since that structure includes prion-like regions, random errors in mRNA sequences — which may be truncated by the human immune system before they reach the ribosomes in the cells — **could cause mRNA vaccine recipients to churn out prions in their own bodies.**

The risk of this was assessed by Dr. J. Bart Classen, who authored a paper in *Microbiology & Infectious Diseases*: “Covid-19 RNA Based Vaccines and the Risk of Prion Disease.” You can see the text of the study at this link.

That study concludes, “The results indicate that the vaccine RNA has specific sequences that may induce TDP-43 and FUS to fold into their pathologic prion conformations.”

It also explains:

The folding of TDP-43 and FUS into their pathologic prion conformations is known to cause ALS, front temporal lobar degeneration, Alzheimer's disease and other neurological degenerative diseases.

The Mayo Clinic says CJD, the disease caused by prions, is **100% fatal and has no treatment.** Some of the symptoms of CJD (prion disease) described by the Mayo Clinic include:

- Stroke-like symptoms
- Difficulty speaking
- Confusion
- Odd movements

Other symptoms include emotional changes, a sharp loss of cognitive function and seeming personality changes. It all ends in death. Once the prion symptoms are evident, it's already too late. There is no treatment and no reversal possible.

The mRNA vaccines may unleash a wave of “zombie” prion disease deaths, known as “Mad Cow Disease” in humans (CJD)

Another observer, Registered Nurse Laraine had this to say about the Jab:

1. Spike Protein is Bioterror weapon
2. Spike has 4 major components all together giving it racial specificity(Ace2, Furin &Tmprss2 and GP120/41 HIV like attachment) Judy Mikovits just added: Don't forget key syncytin In spike not LNP

It's HervW env/xmrV env like gp120 is hiv env

All in VERO cells for noseum recombination

The Tmprss2 Furin all comes from xmrVs

Don't need anything else perfect selective murder weapon.

3. Chinese are killed if assembled onto Coronavirus so unlikely designers of spike.
4. Spike protein Ace2s and GP120/41 have low affinity/ susceptibility to Ashkenazi Kazarians
5. Big Tech is run and funded by InQTel (CIA NSA - intelligence) and former agents of Unit 8200 dual citizens.
6. Our US military up to and including the level of the Joint Chiefs is complicit or involved. (Robert Kadlec, MD and more)
7. Media is run by VOA through Smith-Mundt modernization act allowing propaganda on US citizens.
8. Declassification Board headed by Ezra Cohen-Watnick (dual citizen) must declassify spike protein and research.
9. Adjuvant nanotechnology for Human AI interface ie Harvard professor Lieber's work needs to be declassified as does the adjuvants in the vaccines.
10. All companies that participated must not have legal immunity; prosecution as racketeering and co-conspirators must begin.
11. Investments of InQTel and Goldman Sachs as well as Blackrock who are now co-conspiring with foreign governments to sell American hard assets while leaving US citizens with worthless currency and soon to be perhaps worthless stocks and digital currency.
12. Our CIA and NSA as well as Unit 8200 directed the election vote rigging via funding of legislators through GPOS and through ownership. Of Dominion Hart Intercivics and EES to flip votes.

Republicans and Democrats are involved and complicit.

NEUROLOGICAL THREATS

Neurological Threats from the Jab

Because of the mechanisms revealed above, there is a possibility that mRNA vaccines might unleash a wave of neurological disease over the next several years. Victims of this prion disease would appear to have rapid-onset Alzheimer's, dementia or cognitive decline. This condition could affect millions or even tens of millions of people in the United States alone. This wave of prion disease would, in a way, transform people into “zombies” as the prions “eat their brains.” (For a full discussion of prion protein folding, listen to the full podcast below. Prions don't actually “eat” brains, but they destroy brain cells in a morphological way.)

The entire fake news media insists this is impossible. They say prions can't be created by mRNA vaccines. Then again, these are the same dangerously false, misleading and deliberately dishonest media outlets that currently claim the coronavirus wasn't engineered in a Chinese lab, and they simultaneously (and falsely) claim no one has died from covid-19 vaccines. Therefore, the fake news media has zero credibility and is known to lie to cover up the crimes and product safety faults of the vaccine industry. The fact that corporate-run propaganda media outlets claim mRNA vaccines can't cause prions probably means *they can*. (Related: Mad cow disease prions capable of evolution, even without DNA)

CNBC is already reporting that 1 in 3 COVID “survivors” now has a mental disorder. Are these post-vaccine people? Or is this more to do with the depression caused by lockdowns? Some of the mental outcomes already documented include dementia and anxiety disorders.

A mysterious brain-wasting disease has also been documented in Canada, demonstrating prion-like symptoms such as, “memory loss, hallucinations and muscle atrophy.” Doctors there have ruled out CJD, however, but haven't yet found the cause.¹²

THE JABBED SPREAD THE ‘DISEASE’

At Least 60% Of All New COVID-19 ‘Cases’ Are Occurring In People Who Were Already Vaccinated

On April 27, 2021 Ethan Huff reported:

Dr. Harvey Risch, a professor of epidemiology at Yale University, has calculated that upwards of 60 percent of all new “cases” of the Wuhan coronavirus (Covid-19) are occurring in people who were already “vaccinated” for the disease.

¹² Mike Adams: <http://www.dreddymd.com/2021/04/10/mrna-vaccines-may-cause-your-body-to-churn-out-prions-that-eat-your-brain-like-mad-cow-disease/>

Dr. Harvey Risch, Bannons War Room / Rumble via LifeSiteNews.com

“Clinicians have been telling me that more than half of the new Covid cases that they’re treating are people who have been vaccinated,” Risch told Bannon.

As we have been warning, the so-called “third wave” of the Wuhan Virus will be due to people who were vaccinated contracting and spreading the disease to others.

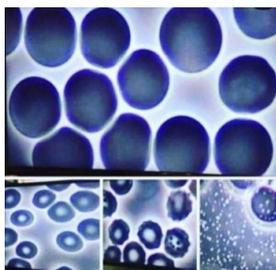

While Americans who buy into the *plandemic* narrative have been led to believe that the jabs will protect them against serious symptoms should they test “positive,” Risch says that the medical establishment is looking at things a little bit differently.

“I think the American public has been sold on the vaccine by the research that shows that they reduce the infection of mild to moderate symptomatic infection by somewhere between 60-90% depending upon age and vaccine ... however, that is not the measure that public health infrastructure, administration, and Dr. [sic] Fauci are using to look at the efficacy of the vaccine,” he added.

What Big Medicine is most interested in, according to Risch, is whether or not the jabs actually prevent the spread of infection.

It would appear as though they do not and are actually spreading the disease to recipients and their contacts, based on the latest data.¹³

“I have a friend who is a nutrition microscopist. She is an expert in her field.

She has had many patients who have received the so-called vaccination and asked them all to take part in a free post-vaccination analysis.

To her horror, she found that: The picture above shows completely normal, intact and healthy cells before the vaccination.

The change in cells after vaccination showed itself drastically within a few days after vaccination!

The last picture shows the foreign, not endogenous nano-particles that suddenly become visible in the blood! The body can never detoxify itself from this, and these particles will eventually find their way into every cell in the body!

My friend cries over this analysis because she understands something about blood and how it works ... The effects and long-term effects of this vaccine injection will affect the health of the vaccinated for the rest of their lives!

MISCARRIAGES FROM EXPOSURE TO THE JAB

**Number of women losing their unborn child
after having the COVID Vaccine increases
by 2000% in just fourteen weeks**

The Daily Expose reported on May 16th:

Losing a newborn is a heart breaking endeavor, as is the pain of losing an unborn child.

Which is why we're both saddened and shocked to bring you the latest update on the number of unborn and newborn children to lose their lives as a result of the mothers receiving one of the Covid-19 vaccines in the United Kingdom.

The Government have released weekly reports on adverse reactions to the experimental Covid-19 vaccines, the first of which covered data inputted to the MHRA Yellow Card Scheme from the 9th of December 2020 through to the 24th January 2021. Their latest report (*find it here*), which is the fifteenth to be released covers data inputted to the

¹⁴ <http://www.opensourcetruth.com/live-blood-cell-analysis-post-covid-jab/>

MHRA Yellow Card Scheme from the 9th of December 2020 through to the 5th May 2021.

Just fourteen weeks separate the first and fifteenth report, and the shocking increase in the number of women losing their unborn and newborn child in that time due to having either the Pfizer or AstraZeneca Covid vaccine is appalling.¹⁵

There is a rapidly developing body of knowledge that suggests Adverse Reactions to the “vaccine jab” include assaults on the immune system, the reproductive system and the circulatory systems, if not other normal bodily functions. Our current conclusion is that the EUA injections are a clear and present danger to the public health. This danger is unappreciated by the public health authorities leading to a dire situation in which individuals must make difficult choices to protect themselves and their loved ones.

WHAT IS TO BE DONE

Spike Protein Shedding Risk

General Bert:

**They are Weaponizing the Vaccinated
Into Bioweapon Terrorists!**

Dr. Rima and her husband General Bert have been engaged in an intimate conversation since shortly after his apparent death on his 86th Birthday in 2017. She has been “remote viewing” him and several thousand pages of extraordinary material have come through. More about that here: www.GeneralBertSpeaks.com

For our purposes here, my friend and mentor General Bert has provided us with several Estimates of Situation regarding the so-called COVID vaccines and the alleged Declared Pandemic. Here is the latest (informal) EoS (links to the two earlier are at the end). General Bert brought “remote viewing” to the intelligence community and told me on more than one occasion that his remote viewing teams brought him as good actionable information as did his “boots on the ground.”

Consider this transmission, therefore, as the most open of *Open-Source Intel*. Its validity is something for you to determine, whether it is from the still-engaged mind of the General, or from the subconscious of the Doctor, distilling her half century of medical practice.

However, fail to heed this warning at your own risk. More about the experimental jabs shedding spiked protein and other dangerous stuff below. rf

Do not, not, I say again, do not mix and mingle with vaccinated people. You are about to have an attack of shingles from their dangerous shedding.

Do not scratch. Go take a capful of [redacted] and set a timer to take one every hour for 6 hours. Go do it now, Sweetheart.

You are right, you know. The ultimate danger is what they have turned vaccinated people into: bioweapon terrorists.

And now the ethical action is to... do what? Quarantine THEM? *NO*. FIND A WAY TO RETURN THEM TO THEIR BIOLOGICAL STATE. Support homeostasis.

Thank God that most children are not yet vaccinated. That is the ultimate battle ground.

They will be impacted by the bioweapon adults around them, of course, and most of their parents will die or worse, yes, worse, before they are grown, so orphanage care and adoption are global essentials, but for now their genome is relatively safe.

The argument that there is no need to vaccinate them since the disease does not kill them is true, but irrelevant.

How many well fed, well-nourished children does measles kill, yet there is a sense that every child needs it [the vaccine – REL] everywhere. Same with Polio, which, in a non-toxic world, is only caused by such things as vaccines.

But that is not the case in the minds and hearts of most people. So appealing to the rational and logical will not keep them safe. And they are the last reproductively capable reservoir of humanity.

But with all the vaccinated people around them, their reproductive capacities, the closer they are to puberty, will also be interfered with.

This is what the globalists knew and anticipated.

This is the final game, they believe, and you have massive truth rushes.

The answer is partly all the things that we know: nutrition, homeopathy (very important), detox of the correct sort (not at all what we know now as detox) and, most important, frequency.

Rima, the spike protein has been characterized. It can be tested for in the breath, sweat, urine, feces and tears of vaccinated people. It can be swabbed from their skin and, unlike the SARS-COV-2, tested for *accurately*.

Make this happen, Darling Woman. Then we will work out the detox regimen.

You have gale force ‘*OH By the Way’s, Love*’, as well you might. No one else is considering [moving-REL] on this...

Tell our friends on OpenSourceTruth. Urge them to make this EoS go viral!

Based on our analysis of the current state of knowledge several points come to mind.

ACTION STEPS

FIRST: TAKE BACK THE LANGUAGE! Stop calling the Experimental Injections “vaccines.”

They are not “vaccines” in the literal sense of the word so let’s call them “**jabs**.” That divides the world into those who are the Jabbed and those who are not.

Detoxifying the Jabbed is significant, Detoxification of those exposed to the spiked protein by the Jabbed is utterly urgent.

SECOND: GET THE DATA! We need to know exactly what being transmitted by the Jabbed.

By *all* the Jabbed? Do the different jabs shed different toxins? In different ways? For how long? If one’s genetic system has been changed, will that be for the rest of the lives of the Jabbed? We need to verify and characterize the spiked proteins being transmitted to the Unjabbed by the Jabbed. It seems logical to use a CPR test.

If you have access to a lab that can run these tests at the correct number of replication cycles, please contact Dr. Rima dr.rima@naturalsolutionsfoundation.com

THIRD: KNOW THE DANGER! Learn more about “Spiked Protein Shedding” here: <https://www.opensourcetruth.com/nurse-warns-stay-away-from-those-who-ve-been-vaxxed/> Share this message with this link: <http://www.opensourcetruth.com/general-bert-estimate-of-situation-3/>

FOURTH: USE THE LAW TO STOP THE SLAUGHTER! What is the LEGAL Remedy for the government-sponsored disinformation campaign regarding the danger the Jabbed pose to the rest of us?

The powerful social media “acting under color of law” must be mandated to allow truthful communications about the risks of the Jab. The entities that have engaged in censorship that puts us all at risk from the Jabbed ought to be mandated to fund the necessary Legal Remedies. You can follow the work of the several private Tribunals of Conscience¹⁶ which seek to mobilize world-wide outrage against violations of the Right to Informed Consent. See: www.MarshallsofConscience.com

FIFTH: KNOW THE BACKGROUND: You can access General Bert’s previous 2021 Estimates of Situation:

12 April 2021 – <http://www.opensourcetruth.com/general-bert-estimate-of-situation-2/>
20 February 2021 – <http://www.opensourcetruth.com/general-bert-estimate-of-situation/>

SIXTH: SUPPORT YOUR IMMUNE SYSTEM: TREAT THE SPIKE PROTEIN LIKE YOU WOULD TREAT THE DISEASE. The Spike Protein is the part of the pathogen that attaches to your living cells, penetrates and replicates. Use your understanding of the immune system to support it. One traditional approach which has been asserted to be helpful, although no scientific studies exist to substantiate its usefulness, is to supplement with Pine Needle Tea. SAMPLE PROTOCOL

[Reproduced from a Telegram Posting of 10 July 2021]

For those:

- Who have already been injected with the experimental shot 🦏
- Concerned with the #spikeprotein transmission coming off those who’ve been jabbed 🦏

- Zinc (30-80mg per day)
- Vitamin D3
- Lypospheric Vitamin C (30ml, twice daily)
- #Quercetin (500-1000 mg, twice daily)
- Iodine
- CoEnzyme Q10 and PQQ

- Pine Needle Tea for shikimic acid or shikimate (from green edible pine needles) ⚠️ There are toxic pine needles, careful! When drinking #pineneedletea, drink the oil/resin that accumulates too! #Shikimate, shikimic acid and their derivatives possess: cancer fighting, antiviral, antimicrobial, anticoagulant and antithrombotic properties.
- Fennel and/or Star Anise Tea: These are also an excellent source of shikimate or shikimic acid (which is known to neutralize the spike protein)
- C60 (1-3 droppersfull per day)
- Charcoal (2-4 capsules a day): Charcoal is the pre-eminent detoxifier and when taken on an empty stomach, works its way down into the intestines and activates a blood purification process known as “interstitial dialysis”.
- Citrus fruit (especially blood oranges, due to their high hesperidin content — hesperidin is a chalcone like quercetin that deactivates spike protein)
- Peppermint (very high in hesperidin)
- Wheatgrass and Wheatgrass Juice (blades are high in shikimate)
- Superherbs to help disable spike protein:

¹⁶ <http://www.opensourcetruth.com/tribunals-of-conscience/>

- Schizandra Berry (high in shikimate)
- Triphala formulations
- St. John's Wort (shikimate is found in entire plant)
- Comfrey Leaf (rich in shikimate)
- Feverfew (leaves and flowers are rich in shikimate)
- Ginkgo Biloba Leaf (rich in shikimate)
- Giant Hyssop or Horsemint (Agastache urtifolia) (rich in shikimate)
- Liquidambar (Sweet Gum tree) A tea of the spiky seed pods is rich in shikimate.

Join Here: <https://t.me/UNJabberwockyNetwork>

Welcome from your Admins — Dr. Rima, Counsel Ralph and Tom Cox — to the UN Jabberwocky Channel. This is a place of refuge and resources for the UN (COVID) Jabbed. We must reshape our world so that we can find, support and inform each other. General and local connections are essential for us to live and thrive in a time of intentional plague.

We welcome the creation of local UnJabberwocky Networks of the un-jabbed for social interaction and mutual support. Let us know when you form an affinity group and set up your own Jabberwocky-[location] Telegram group and we'll announce it there.
